

What would it be worth if you could synchronise every aspect of your supply chain?

Integrated Business Planning (IBP) is often spoken about and referred to, however implementing it and getting it right is far easier said than done.

The Prophit Systems High Performance planning programme can help guide and support you through your journey. We can provide you with an independent assessment of your current position and assist you with developing and executing an action plan to deliver High Performance Planning (HPP).

Are you providing clear and consistent leadership?

Leadership

- are you "Walking the talk"?
- have you provided clear ownership and accountability?
- have you empowered your team?

Policies

- are your policies documented?
- have your policies been communicated?
- do you have clear unambiguous Inventory Policies?
- are your KPI's clearly defined?
- are your Customer Contracts and commitments documented aligned with planning rules ?

Procedures

- Do you have a Formalised Planning Process in place
- are your procedures configured to meet the needs of your business
- do you have a business "Rhythm"

Your Vision

Have you developed & communicated your strategy?

Have you Set your destination?

Annual Plan Budget

Is your course clearly plotted?

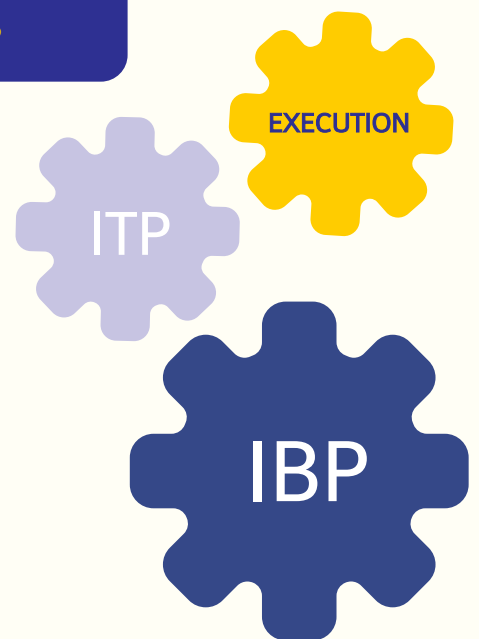

- Is your Business plan developed
- being implemented, monitored, reviewed and adjusted

Are you navigating your journey?

Clarify and undertake your actions

Are you refining your actions

Are you activities being acted upon with urgency and intent?

Fully Integrated & aligned activities

Do you have the right people, with the right skills, and the appropriate training?

- What is the appropriate training and development plan to build and develop your organisational knowledge?
- How skilled is your team?
- How well do they measure and report on how you are tracking?
- Are you using the latest tools and methods to optimise your plans?
- How well are your stakeholders engaged and do they understand their role?

Do your systems...

Support your Decision Making?

Is Each planning decision made with a clear view of cost and consequences of every choice?

Deliver Fulfilment?

How well do you prepare to satisfy your customers needs?

Align your data?

How well is each department Synchronised and provided access to the same information and assumptions?

Taking from the Past

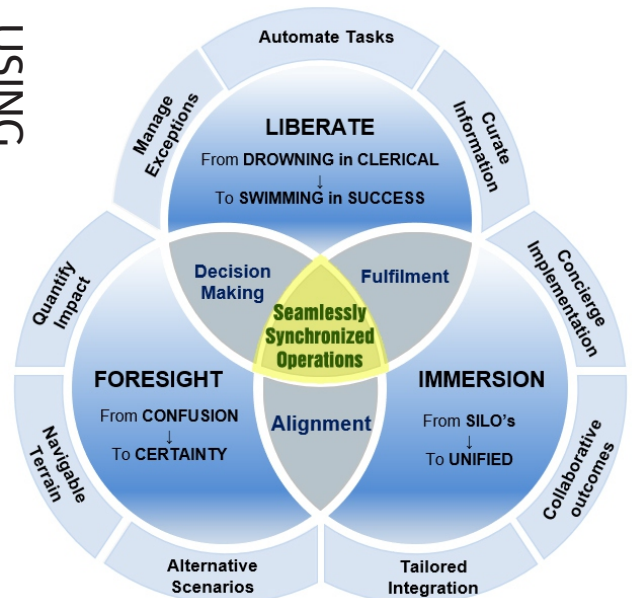

Acting in Present

Predicting Future
